

Agricultural Strategies

Are you wondering how to deal with the any of the following scenarios?

- **Land Reform and related legislation developing into:-**
 - **Majority shareholding by BEE partners**
 - **Expropriation of land**
 - **Extended periods and grounds for land claims**
 - **Bar to foreign ownership and investment**

Are you looking for a realistic BEE partner?

Worried about devaluation of your land by

Government Policy and major financing institutions with resultant equity complications?

Having trouble with the banks with regards to interest payments?

Having trouble selling your property?

Wanting to relocate overseas?

Wanting to expand operations (diversify) abroad?

Need to set up legitimate and Reserve Bank approved international companies, trusts, etc.

Needing strategic and financial planning advice on investing local or foreign currency abroad or purchasing foreign based managed funds?

International as opposed to locally based retirement planning?

Setting up Reserve Bank approved structures and trusts for study funds, RAD funds, or beneficiaries in estate planning?

Marketing your technology, skills and patents abroad?

Accessing World Bank Funding for local and foreign projects in agriculture and aquaculture?

Accessing Multinational Investment Guarantees against political risk?

Securing or sourcing existing Bank Guarantees and/or Promissory Notes?

Advice and mitigation with regards to letters of credit?

Commodity trading?

Setting up international confidentiality, intellectual property and non circumvention agreements or treaties and securitizing them against breach without resort to litigation in multiple foreign jurisdictions?

Setting up workable arbitration agreements enforceable in other jurisdictions and which are securitized?

If it is your aim to: -

- † **Deal with these issues now before they develop into major problems**
- † **Access a strategic plan that will produce a properly controlled mitigation and management strategy**
- † **Proper contingency planning,**
